

In the City Council
City of Lodi
Lodi, California

RESOLUTION NO. 1980

WHEREAS, the City of Lodi, San Joaquin County, California, a municipal corporation constituting a portion of the North San Joaquin Water Conservation District, is in dire need of a supplemental supply of water to replenish the depleted underground water basin in said District; and

WHEREAS, the City of Lodi is interested in obtaining such supplemental supply of water from the American River by means of the Folsom South Canal proposed to be constructed by the United States Bureau of Reclamation from Folsom Dam at Nimbus southward through the Counties of Sacramento and San Joaquin; and

WHEREAS, through the so-called "California Water Plan" and the report entitled "San Joaquin County Investigation - Bulletin No. 11", the State Water Resources Board has heretofore indicated that the American River is a logical source for the required supplemental water supply of San Joaquin County, the North San Joaquin Water Conservation District and the City of Lodi; and

WHEREAS, to make such American River waters available to the North San Joaquin Water Conservation District and the City of Lodi will require the construction of said Folsom South Canal, and before such construction can be authorized by the Congress, the Bureau of Reclamation must first complete its present studies and feasibility report on the extension of said Canal to San Joaquin County;

NOW, THEREFORE, be it resolved that the City Council of the City of Lodi respectfully request said Bureau of Reclamation to complete its present studies and feasibility report of the extension of the Folsom South Canal to and through San Joaquin County as soon as possible, and as soon as practicable thereafter, to obtain the required authorization and appropriation of funds from the Congress for the construction and completion of said Folsom South Canal.

Certified to be a full, true and correct copy of Resolution No. 1980 as passed and adopted by the City Council of the City of Lodi in regular meeting held November 7, 1956.
